

INDIVIDUAL PROPERTY/DISTRICT
MARYLAND HISTORICAL TRUST
INTERNAL NR-ELIGIBILITY REVIEW FORM

Property/District Name: Various Buildings Andrews Air Force Base Survey Number: PG:77-15thru57

Project: 110 Survey of Andrews Airforce Base Agency: F/AF

Site visit by MHT Staff: ☒ no ☐ yes Name _____ Date _____

Eligibility recommended ☐ Eligibility not recommended ☒

Criteria: ☐ A ☐ B ☒ C ☐ D Considerations: ☐ A ☐ B ☐ C ☐ D ☐ E ☐ F ☐ G ☐ None

Justification for decision: (Use continuation sheet if necessary and attach map)

The Air Force's consultant determined these buildings ineligible based on age and/or integrity. The World War II buildings have been significantly altered and do not form any cohesive architectural identity. The Trust concurred that all of these buildings were not eligible.

Documentation on the property/district is presented in: with this MHIP form and Andrews Air Force Base compliance file

Capsule Summary

Inventory No. PG: 77-40
Property Name: Fire Station #3621
Location: Andrews Air Force Base
Ownership: Public/Military
Date of Construction: ca. 1943

Building #03621 is a one-story tall, fire station located on the east side of the base, along Patrick Road. The building, which is "T" shaped in plan, was constructed of concrete block. The front, or head of the building is three bays wide, with a flat roof. The leg of the structure has a gable roof covered with asphalt shingles, and is seven bay deep. Modifications to the structure include the addition of a stucco finish on the head building, a lean-to addition to the north side, new garage doors, and new exterior lighting. With the exception of two trees, there are no landscaping plantings around the building.

This building was constructed to support the flight line at the base. It is located adjacent to hangers on the east side of the installation. Originally constructed out of exposed concrete block, the front portion of the structure (the Headhouse) has been covered with stucco, changing the character of the building through covering the block pattern and texture. In addition, the original garage doors, metal windows, and equipment have been removed. The setting of the structure has changed through the introduction of new hangers and other contemporary buildings adjacent to the site. The integrity of the structure has been damaged significantly through changes in the building entrances, roof, doors, the additions made to either side of the building.
